

CL-5100 Coin Lift

The CL-5100 coin lift with tilt-able hopper. This is a heavy duty conveyor mechanism to raise loose coins from a large transport container into the input hopper of a high speed coin sorter or coin wrapper.

The coin transport container is manually attached to the CL-5100 then a motorised mechanism tilts the coin container until all the coins empty into the hopper of the CL-5100 for transport up to the coin sorter or wrapper.

Dimensions 1544 mm high 1531 mm deep 648 mm wide

Weight approx. 162 kg

Voltage 230V 50Hz

Power 2.5A

Transport volume approx. 3500 coins per minute

Hopper Capacity approx. 40 L

MAXIMUM T: 1800 111 286
