

CL-5101 Coin Lift

The CL-5101 is a heavy duty coin lift with a large hopper.

The CL-5101 transports mixed coins with a conveyor belt via an output chute directly into a sorting machine. The feed hopper is filled manually.

The coin lift consists of a main frame with electromechanical conveyor, coin hopper, coin feeder and coin output chute. Controls to start and stop the conveyor are conveniently positioned for easy access.

Weight approx. 130kg

Power supply 230V 50Hz

Hopper Capacity approx. 70 L

Conveying capacity approx. 3500 coins per minute

MAXIMUM T: 1800 111 286
