

CL-5102 Coin Lift

The CL-5102 coin lift prepared for large coin transport containers.

The CL-5102 is a heavy duty conveyor system designed to transport loose coins from a REIS designed, moveable coin container (MTW) up into the hopper of a further coin processing system (i.e. a high speed coin sorter or coin wrapper etc.).

The MTW is a special mobile coin container that fits to both the CS-3515 coin sorter and the CL-5102. Other special designs of MTW are available on request.

Weight approx. 130 kg

Power supply 230V 50Hz

Hopper capacity approx. 70 L

Conveying capacity approx. 3500 coins per minute

MAXIMUM T: 1800 111 286
